(Mon-Thu from 10am to 3.30pm)

The purpose of Hivpoint is to

- prevent HIV transmissions and to promote sexual health
- provide support to people living with HIV and to people concerned about contracting HIV
- promote the rights of people living with HIV and work for their well-being
- improve the knowledge of healthcare professionals, social workers and educators about HIV, other STIs and sexual health

Funding

The main source of funding for Hivpoint comes from the Funding Centre for Social Welfare and Health Organisations (STEA), operating in connection with the Finnish Ministry of Social Affairs and Health. Other funds come from the municipalities, ministries and our own fundraising.

National counseling services

Counseling over the telephone, counseling on our website, chat counseling

Rapid HIV tests

- Checkpoint testing for gay and bisexual men and other men who have sex with men
- Walk in testing for immigrants
- Testing for travellers and other people who have a higher risk of HIV
